Bit Series

Bit Series Bluetooth Headsets & Communicators (Bit-2, Bit-3)

- **Bit Series** devices are ChatterBox's "Bluetooth communicators".
- **Bit-2** is a Bluetooth headset for your smartphone or other Bluetooth device. *It does not communicate to other headsets.* (Solo Rider)
- **Bit-3** is a bluetooth headset **and** communicator. It will pair and communicate with another Bit-3 (ideal for Rider/Passenger)
- **Both devices use the same accessories;** cradle mount, speakers, microphones, charger
- Bit-3 has "Universal Pairing" to communicate to NON Chatterbox brands (*Cardo, Sena, UClear*).
- Range between Bit-3 & other communicators is up to 300m with the another paired communicator within your line of sight
- Both Bit Series devices are easy to connect & pair and are SIMPLE to use.
- Standby time of up to 20 Hrs before charging is needed
- Talk time 8-10 Hrs (w/constant talking)
- Bit-3 is available in a Twin Pack.
