I. Warranty Coverage and Exclusions

Maxon LMR and DR products are covered by either a three (3), two (2), or one (1) year limited parts and labor warranty against defects in materials and workmanship. Accessories carry a one (1) year limited warranty. This warranty is extended to the original purchaser/end-user and is not transferable. Refer to the Warranty Statement for complete details. **Products not considered LMR or DR products are excluded from this warranty program and will carry their own unique warranty period and coverage.**

Any product subjected to neglect, misuse, unauthorized modification, accident, improper installation, defacing or removal of the serial number or having defects caused by service performed by anyone other than an Authorized Maxon Dealer will not be covered by this warranty. It is the responsibility of each Authorized Maxon Dealer to use reasonable judgment as to whether or not the warranty terms as stated have been violated.

Neglectful damage or defects caused by an Authorized Maxon Sales and Service Outlet during repair attempts may not be covered by this warranty, and are subject to review on a case-by-case basis. Maxon America, Inc. has final authority in deciding the validity of claims. Maxon reserves the right to change or modify this Warranty Service Program at any time without prior written notice.

II. Warranty Service Programs

Defective on Receipt (DOR) Program – If a new product is received and deemed defective out of the box by an Authorized Maxon Dealer, contact Maxon immediately and an exchange unit will be shipped within the next business day.

In Warranty Radio Repair Program - If a radio fails during the established warranty period, the Dealer has the option of **a)** repairing it and being reimbursed by submitting a warranty claim (not valid on products with a one and two year warranty) or **b)** returning it to Maxon via freight prepaid for repair or exchange at Maxon's option. Maxon will return products via freight prepaid.

Out of Warranty Radio Repair Program - Out of warranty radios will be repaired by Maxon at the following rates:

TPD Series - \$110 (Minimum) to \$125.00 (Maximum) per radio.

TS/TJ Series \$40 (Minimum) to \$50 (Maximum) per radio

All other LMR and DR Series radios - \$70.00 (minimum) to \$85.00 (maximum) per radio.

The maximum repair rate is used if parts costs exceed \$25.00 to return the unit to operating condition. Included with the rates are a 90-day warranty and return shipping costs. If the product is deemed un-repairable, a \$25 diagnostics service fee will be charged and the Dealer will have the option of having the unit returned freight prepaid or disposal of the product by Maxon.
