Re: MAXON AMERICA'S DEMO PROGRAM

Date: May 9<sup>th</sup>, 2025 (*updated*)

Maxon's DEMO PROGRAM provides new, full radio kits that include radios, all inbox accessories, and manuals we are selling to our dealer community at reduced pricing to demonstrate Maxon products to your customers.

Each dealer will be allowed 2 radios (includes portable radios, mobile radios, data radios, wireless speakers), *and 1 repeater* of each model (VHF or UHF) at DEMO PROGRAM pricing, which will be 25% off of current dealer cost. Programming cables and software CDs are not included and must be purchased. *Programming SW can be downloaded from the dealer portal for free.*

DEMO radios & repeaters can be returned within 30 days of receipt. Invoices for DEMO units will be charged after 30 days. Contact your Sales Manager if demo period needs to be extended beyond 30 days.

Returned DEMO equipment will have a 15% restocking fee. Additional fees will be incurred if accessories and packaging are missing or if equipment is damaged or dirty. You cannot re-purchase a previously demoed product at the discounted pricing.

Contact your Sales Manager with any questions 800-456-2071.
